

Our Customer is a leading provider of integrated consulting, technology, and transformation services in financial sector.

At present the Package Integration Delivery practise is undergoing significant expansion. As a consequence and in order to meet the burgeoning order books of our customer, we are seeking to recruit a range of Investment Banking systems professionals across functional and technical areas, including Murex and Wall Street Systems specialists.

For his Technology Services Team in Frankfurt we are searching for

Senior Developer with significant Murex Flex API experience (w/m)

for a Murex Implementation project.

This contract is initially for 6 months but further extension is likely. Key tasks will include the design and development of new features, enhancing existing components in the Murex Flex layer and assisting in the evolution of current architecture. Exposure and understanding of an FX Options Front Office Environment is desirable and **2 to 3 years** of hands on Murex Flex experience is essential.

Essential Skills

In depth Murex Flex API knowledge
Strong C++ development
Strong Java development
Murex MXML
Good understanding of Murex business functions
Excellent communication skills (written & verbal)
Experience across Windows and Unix platforms

Roles and Responsibilities

Design, development and testing of new features or interfaces

Personal Attributes

Proactive
Team Player
Self Motivated
Ability to prioritise
Willingness for occasional travel overseas
Degree level educated

Es erwartet Sie ein spannendes Umfeld mit internationalen Kontakten, täglich neuen Herausforderungen und hervorragenden Aufstiegschancen.

Unser Kunde bietet hohe Entfaltungsmöglichkeiten in einem unternehmerischen Umfeld.

Wenn wir Ihr Interesse geweckt haben, freuen wir uns über Ihre aussagekräftigen Unterlagen (Lebenslauf, Projekthistorie, Zeugnisse).
